

Jira

User Story example in Jira, to create a Sales Dashboard by Product

The screenshot shows a Jira user story card titled "Filter Sales Dashboard by Product" (ID ORB-1). The card is in the "In Progress" status. The description states: "As a Sales manager, I want to filter the Power BI Sales dashboard by product for sales profit so that I can quickly focus on performance by product category." The acceptance criteria are: "Dropdown lists all active regions", "Selecting a product filters all visuals", "Multiple products can be selected", and "Clear filter button resets the view". The assignee is Kim M, the due date is Sep 2, 2026, and the start date is Apr 1, 2026. The team is the Application Team. The card also shows an automation section with rule executions and a configuration link. The left sidebar shows the Jira navigation menu with options like "For you", "Recent", "Starred", "Apps", "Plans", "Spaces", "Recent", "Online Ret", "Kim's new", "Support", "Go to mark", "KM bug tra", "More spac", "Recommended", "Create a r", "Filters", "Dashboards", "Operations", and "Customers".

Filter Sales Dashboard by Product

Description

As a Sales manager,

I want to filter the Power BI Sales dashboard by product for sales profit so that I can quickly focus on performance by product category.

Acceptance Criteria:

- Dropdown lists all active regions
- Selecting a product filters all visuals
- Multiple products can be selected
- Clear filter button resets the view
